2022

Dear coin collectors and coin enthusiasts,

We're looking forward and full of anticipation to the coin year 2022, which will see the launch of three new series: the 20 euro gold coin series 'Return of the Wild Animals', the 10 euro polymer ring series 'Serving Society' and the 5 euro colour-printed series 'The Wonderful World of Insects'. We will introduce you to each of these series separately on the following pages.

Meanwhile, other series are coming to their worthy conclusion: the 50 euro gold coin 'Concert Guitar' will bring the 'Musical Instrument' series to a close, whose five coins showcase German instrument making. Although this series was designed by three different artists, it is artistically very coherent.

With the issue of the 100 euro gold coin 'Freedom' on the day after German Unity Day, the series 'Pillars of Democracy', which began with 'Unity' and was continued with 'Justice', comes to an end. In line with previous coin motifs, the motif of the new gold coins is designed to be a narrative triptych.

Additional highlights in the programme include the 20 euro collector coins 'Rumpelstiltskin' from the 'Grimms' fairytales' series and '50 years of Deutsches Kinderhilfswerk' (German Children's Fund) as well as the 2 euro commemorative coin 'Erasmus Programme', which is the fifth 2 euro joint issue.

We hope you find exploring our annual programme exciting and of course wish you lots of fun with your collecting.

20 EURO GOLD COIN SERIES RETURN OF THE WILD ANIMALS

The new series pays homage to the considerable success of nature conservation in Germany. In the mid-20th century hardly anyone thought it would be possible that wild animals which had been almost completely

displaced – some even becoming the stuff of legend – would find new habitats in our densely populated cultural landscape. The first of these is the ‘Grey seal’.

10 EURO POLYMER RING COIN SERIES SERVING SOCIETY

The new series focuses on particular professional groups who are indispensable to both those they help and to the functioning of our society as a whole. Each coin has a polymer ring that is set in the colour characteristic of the respective professional group. The first motif is 'Nursing Care'.

5 EURO COLOUR-PRINTED SERIES THE WONDERFUL WORLD OF INSECTS

The native insect world is an essential part of the fauna in Germany, Europe and the world. Insects whose habitat is increasingly threatened are an animal group of superlatives: with a huge amount of diversity, they make up two thirds of current animal and plant species. The new series launches with the coin 'Insect Realm', whereby digital printing is used for the first time to apply the colour to the relief.
